

Tech Team Volunteer Request

We are looking to expand the team that makes our online services happen. Volunteer roles are available for helping with sound system operation, camera operation, and running the visual presentations. Training will be provided alongside our experienced team. Volunteers are needed for the following roles:

- Sound technician – Operates sound board to control volume and balance of sound.
- Video cameraperson – Sets up and operates video camera and Facebook feed.
- PowerPoint operator – Operates PC and projection system to show PowerPoint slides and videos.

All of the above team members help with setup, service presentation, and post-service shutdown. One team member serves as the “director” of each service to make sure everything stays on track. You can specialize in one role or alternate roles depending on your interests.

Typical Sunday service preparation begins at around 8:15 AM and ends at around 11:15 AM. There can be follow-up recordings on Sunday afternoons for Sunday School or other events. There are also some weeknight opportunities to help film and record music to be inserted as video.

In addition, we need one or two volunteers to help with power point preparation before the service. Materials are typically provided by Wednesday to be assembled by Friday or Saturday. For this role, you need access to a computer and PowerPoint software.

For most roles, qualifications include some experience and aptitude with technology, ability to work with a team, focus, and adaptability. This is a team effort, and no one will be “left alone” to manage the service by themselves – you’ll always be with other volunteers on the team.

These roles are open to senior high age and above.

Prince of Peace’s online mission has been supported by a small group of volunteers during the pandemic. By expanding the team, we will be able to continue to reliably provide the outreach of internet services and activities. We hope that team members will commit to at least one Sunday per month after training.

We would love to talk to you further. If you’re interested in a conversation about how you can help move this ministry forward, please respond to the volunteer request form at <https://forms.gle/L9BzTuE426Q1aSqr6> and we’ll be in touch.
